BRC-A Upcoming Events

BUSINESS
RENEWABLES
CENTRE
AUSTRALIA

Webinars

Every 6-8 weeks. Upcoming: Local Government Guide Launch (End of June).

- Meeting your Net Zero commitments (RE100, SBT, Climate Active),
- Talking to your Supply chain,
- Social license self-assessment, and more!

Resources

- New website (better integrated).
- Diagnostic tool for energy buyers – find what you need more easily – July/Aug.
- More tools & guides.

Events & Training

- Buyer bootcamps – July & December 2022. Registrations from June.
- F2F Networking events (all members) – August & December 2022.
- Australian Energy Week 2022 (June), sector-based events TBA.

Guiding Principles

BUSINESS
RENEWABLES
CENTRE
AUSTRALIA

Principle 1:

Supporting decarbonization of the electricity grid.

Principle 2:

PPAs should support further decarbonization of the electricity grid by enabling other projects.

Principle 3:

Support of environmental and social benefits in order to build 'social license' for renewable energy.

Best Practice for Small, Medium & Large Buyers

Annual Electricity Consumption	Buyer Type	Key Best Practice Features
Less than 25,000 MWh p.a.	Small	<ul style="list-style-type: none">• Retail PPA from a portfolio of assets.• LGC retirement• Project co-benefits identified in tender evaluation criteria
Between 25,000 & 50,000 MWh p.a.	Medium	<ul style="list-style-type: none">• Retail PPA – project-linked with a retailer for one or more projects• LGC retirement (project-linked LGCs)• Project co-benefits identified as preferred in tender evaluation criteria
Between 50,000 & 100,000 MWh p.a.	Large	<ul style="list-style-type: none">• PPA with one or more new projects• Longer-term agreement• Project co-benefits in tender evaluation criteria
Over 100 MWh p.a.	Very Large	<ul style="list-style-type: none">• Targeting best practice• Multiple, long-term PPAs over time• Project co-benefits identified in tender evaluation criteria
